

**YONGYANG CAI**  
326 Agricultural Administration Building  
2120 Fyffe Road, Columbus, OH 43210  
E-mail: [cai.619@osu.edu](mailto:cai.619@osu.edu)

## **Education**

PhD, Computational and Mathematical Engineering, Stanford University, 2010  
MS, Financial Mathematics, Stanford University, 2008

## **Research Interest**

Climate Change Economics; Computational Economics; Environmental and Resource Economics; Integrated Modeling; Decision Making under Uncertainty

## **Employment**

2022-present	Professor, Department of Agricultural, Environmental and Development Economics, The Ohio State University
2016-present	Core Faculty, Sustainability Institute, The Ohio State University
2011-present	Researcher, RDCEP, University of Chicago
2016-2022	Associate Professor (with tenure since June 2019), Department of Agricultural, Environmental and Development Economics, The Ohio State University
2015-2016	Senior Research Scientist, Becker Friedman Institute, University of Chicago
2015-2016	Visiting Fellow, Hoover Institution, Stanford University
2013-2015	Research Scientist, Becker Friedman Institute, University of Chicago
2011-2015	Researcher, Hoover Institution, Stanford University
2012	Visiting Scholar, Energy Policy Institute at Chicago, University of Chicago
2011-2013	Postdoc, National Bureau of Economic Research
2010-2011	Postdoc, Dept. of Management Science & Engineering, Stanford University
2004-2010	Research Assistant, Hoover Institution & ICME, Stanford University
2002-2004	Research Assistant, Dept. of Computer Science, University of New Mexico
1999-2002	Senior Software Engineer, Zhongxing Telecommunication Corporation

## **Honors & Awards**

- The 2021 Erik Kempe Award in environmental and resource economics (<https://www.eaere.org/erik-kempe-award>)
- The 2018 Nobel Committee cited my work in their scientific report for supporting the award of the Nobel Prize in Economics to William Nordhaus
- A White House report in July 2014 featured my work

## **Grants & Fellowships (total grant > \$50 million; PI/co-PI grant > \$5 million)**

- National Science Foundation grant RISE-2108917, “DISES: Coproducing actionable science to understand, mitigate, and adapt to cyanobacterial harmful algal blooms (CHABS)”, 2022-2025, USD 1,600,000, Co-PI (starting in 2023). (PI: Christine Kirchhoff)

- United States Department of Agriculture ERS grant 58-3000-3-0079, “The Impact of the EU’s carbon intensity plans on agriculture trade”, 2024-2025, USD 40,000, PI.
- National Science Foundation grant OAC-2112606, “AI Intelligent CyberInfrastructure with Computational Learning in the Environment (ICICLE)”, 2021-2026, USD 20,000,000. (PI: Dhabaleswar Panda) <https://icicle.osu.edu/>
- National Science Foundation grant SRS-2115405, “Multiscale RECIPES (Resilient, Equitable, and Circular Innovations with Partnership and Education Synergies) for Sustainable Food Systems”, 2021-2026, USD 15,000,000. (PI: Sauleh Siddiqui) <https://wastedfood.american.edu/>
- National Science Foundation grant SES-1739909, “INFEWS/T1: Impacts of Deglobalization on the Sustainability of Regional Food, Energy, Water Systems”, 2017-2023, USD 2,400,000, Co-PI. (PI: Elena Irwin) <https://drfews.osu.edu/home>
- United States Department of Agriculture NIFA-AFRI grant 2018-68002-27932, “Building a sustainable and resilient agroecosystem through an understanding of climate and farmer behavioral variability”, 2018-2023, USD 1,200,000, Co-PI. (PI: Robyn Wilson)
- Office of Research’s COVID-19 seed funding program (The Ohio State University), “Global Disruption Due to Covid-19: Evaluating the Potential Impact on the Ohio Economy”, 2020, USD 30,000, PI.
- National Science Foundation grant SES-1463644, “DMUU: Center for Robust Decision-Making Tools for Climate and Energy Policy”, 2015-2020, USD 4,500,000. (PI: Elisabeth Moyer; former PI: Ian Foster) <https://www.rdcep.org/>
- United States Department of Agriculture NIFA-AFRI grant 2015-67023-22905, “Will Global Change Jeopardize the US Forest Carbon Sink”, 2015-2017, USD 500,000. (PI: Thomas Hertel)
- National Science Foundation grant SES-0951576, “DMUU: Center for Robust Decision-Making Tools for Climate and Energy Policy”, 2011-2016, USD 6,000,000. (PI: Ian Foster) <https://www.rdcep.org/>
- Great Lakes Consortium for Petascale Computation projects at the Blue Waters Supercomputer, “Policy Responses to Climate Change in a Dynamic Stochastic Economy”, 2013-2020, 1,465,000 node hours, PI (former PI: Lars Peter Hansen).
- Beagle supercomputer climate project at Computation Institution of the University of Chicago, 2012-2015, PI.
- Visiting scholarship, Energy Policy Institute at Chicago, University of Chicago, 2012
- Postdoctoral research fellowship, Hoover Institution and MS&E, Stanford University, 2010-2011
- Research assistantship, Hoover Institution and ICME, Stanford University, 2004-2010
- Research assistantship, Department of Computer Science, University of New Mexico, 2002-2004

## **Conference Presentations and Invited Talks**

1. Climate Policy under Spatial Heat Transport and Risks: Cooperative and Noncooperative Regional Outcomes. Invited talk (virtual), Workshop of Stochastic Modelling in Climate Risk: Financial Mathematics and Economics, Tokyo, Japan, November 2023.
2. Dynamics of Global Emission Permit Prices under Noncooperation. Invited keynote talk, PACE 2023 International Conference on Theory and Policies of Green and Low-carbon Development in China, August 2023.
3. Advanced Computational Methods for Dynamic Stochastic Problems. Invited talk, Institutes of Science and Development, Chinese Academy of Sciences, July 2023.
4. Advanced Computational Methods for Dynamic Stochastic Problems. Invited talk, Center for Energy and Environmental Policy Research, Beijing Institute of Technology, July 2023.
5. Climate Change Impact on Economic Growth: Regional Climate Policy under Cooperation and Noncooperation. Invited talk, Climate Change Economics Forum (virtual), June 2023. [https://www.bilibili.com/video/BV1pc411g7jf/?spm\\_id\\_from=333.999.0.0](https://www.bilibili.com/video/BV1pc411g7jf/?spm_id_from=333.999.0.0)
6. The role of uncertainty in controlling climate change. Invited talk (virtual), School of Public Finance and Taxation, Southwestern University of Finance and Economics, December 2022.
7. The social cost of carbon with economic and climate risks. The Erik Kemp Award Ceremony talk (virtual), Umeå University, October 2022.
8. Methods and Applications of Integrated Assessment Models with Uncertainty. Invited talk (virtual), Institutes of Science and Development, Chinese Academy of Sciences, August 2022.
9. Integrated Assessment Model and Uncertainty. Invited talk (virtual), Center for Energy and Environmental Policy Research, Beijing Institute of Technology, July 2022.
10. Climate Change Impact on Economic Growth: Regional Climate Policy under Cooperation and Noncooperation. Invited keynote talk (virtual), PACE 2022 International Conference on Theory and Policies of Green and Low-carbon Development in China, June 2022.
11. A Simple but Powerful Simulated Certainty Equivalent Approximation Method for Dynamic Stochastic Problems. Invited seminar (virtual), School of Economics and Management, University of Chinese Academy of Sciences, June 2022.
12. Social Cost of Carbon with Climate Tipping Points, Sea Level Rise, and Damage on Economic Growth. Invited seminar (virtual), Department of Economics, Ningbo University, April 2022.
13. Economic implications of multiple interacting tipping points. Invited talk (virtual), OECD Expert Workshop Economic Modelling of Climate and Related Tipping Points, OECD, October 2021. <https://www.youtube.com/watch?v=7IBG8GBp6mY>

14. The social cost of carbon with economic and climate risks. Invited seminar, Economics and Management School, Wuhan University, July 2021.
15. Capital stocks and climate policy: The discussion of carbon taxes' role. Invited seminar (virtual), School of Public Finance and Taxation, Southwestern University of Finance and Economics, July 2021.
16. Climate Change Impact on Economic Growth: Regional Climate Policy under Cooperation and Noncooperation. The 26th EAERE Annual Conference (virtual), June 2021.
17. Climate Policy under Spatial Heat Transport: Cooperative and Noncooperative Regional Outcomes. The 2021 North American Summer Meetings of the Econometric Society (virtual), June 2021.
18. Climate Policy under Spatial Heat Transport: Cooperative and Noncooperative Regional Outcomes. Invited seminar (virtual), Center for Energy & Environmental Policy Research, Beihang University, December 2020.
19. Climate Policy under Spatial Heat Transport: Cooperative and Noncooperative Regional Outcomes. Invited seminar (virtual), Center for Energy and Environmental Policy Research, Beijing Institute of Technology, November 2020.
20. A dynamic regional economic model to evaluate impacts of deglobalizing forces on food, energy and water systems and the sustainability of the Great Lakes region. AAEA Annual Meeting (virtual), August 2020.
21. Climate Policy under Spatial Heat Transport: Cooperative and Noncooperative Regional Outcomes. The 25th EAERE Annual Conference (virtual), June 2020.
22. Climate Policy under Spatial Heat Transport: Cooperative and Noncooperative Regional Outcomes. 2019 INFORMS Annual Conference, Seattle, Washington, October 2019.
23. Climate Policy with Carbon Removal and Storage in a Dynamic Stochastic Economy. 2019 INFORMS Annual Conference, Seattle, Washington, October 2019.
24. Climate Policy in a Dynamic Stochastic Economy. Invited talk, Blue Waters Symposium, Sunriver, Oregon, June 2019. <https://www.youtube.com/watch?v=n54ewMijtlc>
25. To Build or Not to Build? Capital Stocks and Climate Policy. The 8<sup>th</sup> AERE Annual Summer Conference, Lake Tahoe, Nevada, May 2019.
26. Building a Dynamic Equilibrium Regional Economic Model for the Food, Energy and Water System. PMAT meeting, Columbus, November 2018.
27. Climate Policy under Cooperation and Competition between Regions with Spatial Heat Transport. SEA 88<sup>th</sup> Annual Meeting, Washington DC, November 2018.
28. Climate Policy under Cooperation and Competition between Regions with Spatial Heat Transport. 2018 INFORMS Annual Conference, Phoenix, November 2018.
29. Dynamic Portfolio Choice. Invited talk, nICE workshop, Stanford University, August 2018.
30. NLCEQ: A Nonlinear Certainty Equivalent Approximation method. Invited talk, nICE workshop, Stanford University, August 2018.
31. Climate Policy under Cooperation and Competition between Regions with Spatial Heat Transport. The 2018 China Meeting of the Econometric Society, Shanghai, June 2018.
32. To Build or Not to Build? Capital Stocks and Climate Policy. The 2nd Research Conference on Macroeconomic Modelling and Model Comparison, Stanford University, June 2018.
33. Climate Policy under Cooperation and Competition between Regions with Spatial Heat Transport. Invited talk, Blue Waters Symposium, Sunriver, Oregon, June 2018. [https://www.youtube.com/watch?v=wFDAJN\\_g2ao](https://www.youtube.com/watch?v=wFDAJN_g2ao)
34. To Build or Not to Build? Capital Stocks and Climate Policy. Sustainable and Resilient Economics, The Ohio State University, February 2018.
35. Build now, regret later? Infrastructure and Climate Policy. 2017 INFORMS Annual Conference, Houston, Texas, October 2017.
36. Urbanization and property rights. International Society of Dynamic Games (ISDG) – China Chapter Conference on Dynamic Games and Game Theoretic Analysis, Ningbo, China, August 2017.
37. Policy Responses to Climate Change in a Dynamic Stochastic Economy. U.S. Business Council for Sustainable Development Conference, The Ohio State University, July 2017.

38. Build now, regret later? Infrastructure and Climate Policy. The 20<sup>th</sup> Annual Conference on Global Economic Analysis, Purdue University, June 2017.
39. Climate change impacts in a stochastic dynamic model of forestry. The 6<sup>th</sup> AERE Annual Summer Conference, Pittsburgh, Pennsylvania, June 2017.
40. Climate Change Economics and Heat Transport across the Globe: Spatial-DSICE. Invited talk, The Conference on the Macro and Micro Economics of Climate Change, Santa Barbara, May 2017.
41. Dynamic stochastic integration of climate and economy. Invited talk, Byrd Polar and Climate Research Center, The Ohio State University, February 2017.
42. Spatial DSICE and Min-max Regret. RDCEP External Advising Board meeting, University of Chicago, January 2017.
43. Climate Change Economics and Heat Transport across the Globe: Spatial-DSICE. ASSA Annual Meeting 2017, Chicago, January 2017.
44. The social cost of carbon with economic and climate risks. Invited presentation, Economic Research in High Performance Computing Environments Workshop, Federal Reserve Bank of Kansas City, Kansas, October 2016.
45. NLCEQ: A nonlinear certainty equivalent approximation method for dynamic stochastic problems. Invited presentation, ICE 2016, Hoover Institution, Stanford, July 2016.
46. The social cost of carbon with economic and climate risks. The 2016 North American Summer Meetings of the Econometric Society, Philadelphia, June 2016.
47. Policy responses to climate change in a dynamic stochastic economy. Invited talk, Blue Waters Symposium, Sunriver, Oregon, June 2016.
48. The social cost of carbon with economic and climate risks. Invited seminar, Department of Agricultural & Resource Economics, The University of Maryland, College Park, February 2016.
49. DSICE: a framework for social cost of carbon with uncertainty. RDCEP All Hands Meeting, University of Chicago, December 2015.
50. The social cost of carbon with economic and climate risks. Invited seminar, Department of Agricultural, Environmental and Development Economics, The Ohio State University, January 2016.
51. Bayesian learning in dynamic stochastic integration of climate and economy. The 4<sup>th</sup> AERE Annual Summer Conference, San Diego, California, June 2015.
52. The impact of economic and climate risks on the social cost of carbon. RDCEP All Hands Meeting, University of Chicago, November 2014.
53. The impact of economic and climate risks on the social cost of carbon. Invited presentation, Developing the Next Generation of Economic Models of Climate Change Conference, University of Minnesota, September 2014.
54. Massive parallelism in economics and climate change. Invited dinner talk at ATPESC 2014, Argonne National Lab, August 2014. <https://www.youtube.com/watch?v=Kkfl7WKHzY8>
55. Numerical solutions for solving dynamic portfolio problems. SITE 2014, Stanford University, July 2014.
56. Nonlinear certainty equivalent method for high-dimensional dynamic programming problems. Invited presentation, ICE 2014, Hoover Institution, Stanford, July 2014.
57. Optimal climate policy in the face of uncertainty. Invited seminar, Center for Global Trade Analysis, Purdue University, May 2014.
58. The social cost of stochastic and irreversible climate change and Bayesian learning. Invited talk, The World Bank, Washington D.C., December 2013.
59. The social cost of stochastic and irreversible climate change. AGU Annual Meeting, San Francisco, December 2013.
60. Dynamic stochastic integration of climate and economy. RDCEP All Hands Meeting, University of Chicago, October 2013.
61. The social cost of stochastic and irreversible climate change. Invited presentation, INFORMS Annual Meeting, Minneapolis, October 2013.
62. Numerical dynamic programming and parallelization. Invited talk, Summer 2013 Computation in CA, Stanford University, July 2013.

63. Parallelization and GSSA. Invited talk, Summer 2013 Computation in CA, Stanford University, July 2013.
64. Advances in numerical dynamic programming and new applications. Invited talk, Workshop: Advances in Numerical Methods for Economics, International Monetary Fund, Washington D.C., June 2013.  
<https://www.youtube.com/watch?v=avmoLzmZjj8>
65. Parallelization for computational economics. Invited talk, Department of Economics, Stanford University, December 2012.
66. DSICE: dynamic stochastic integration of climate and economy. Invited talk, Computation Institute, University of Chicago, November 2012.
67. DICE-CJL & DSICE: integrated assessment models. Invited talk, Initiative for Computational Economics, University of Chicago, July 2012.
68. Tipping points in a dynamic stochastic IAM. The 2<sup>nd</sup> AERE Annual Summer Conference, Asheville, North Carolina, June 2012.

## **Teaching & Advising**

### **Teaching (The Ohio State University)**

AEDE 8303 – Climate Change Economics, Autumn 2021, 2023  
 AEDE 7120 – Advanced Quantitative Methods II, Autumn 2019, 2021-2023  
 AEDE 7110 – Advanced Quantitative Methods I, Autumn 2019-2023  
 AEDE 8602 – Advanced Computational, Mathematical, and Quantitative Methods, Autumn 2020  
 AEDE 7320 – Advanced Resource Economics, Spring 2018-2020  
 AEDE 4002.01 – Econometric Applications in Agribusiness and Applied Economics, Autumn 2018  
 AEDE 8895 – PhD Research Seminars, Autumn 2018  
 AEDE 6120 – Applied Quantitative Analysis, Spring 2018  
 AEDE 8200 – Frontiers of Applied Economics (computational methods in economics), Spring 2017

### **Guest Lecturer**

AEDE 7320 – Advanced Resource Economics, OSU, Spring 2017  
 Econ 288 – Computational Economics, Stanford University, Fall 2012

### **Workshop Lecturer**

new Initiative for Computational Economics (nICE) summer workshop, Stanford University, 2018  
 Initiative for Computational Economics (ICE) summer workshop, University of Chicago, 2012

### **Graduate Student Advising**

#### **Doctoral Student (Advisor/ Co-Advisor)**

2016-2018	Yu Zhang, The Ohio State University (placement: Assistant Professor, University of International Business and Economics)
2018-2019	Di Wu, The Ohio State University (placement: Assistant Professor, Zhejiang Gongshang University)
2016-2021	Ziyu Guo, The Ohio State University
2017-2022	Ziqian Gong, The Ohio State University (placement: Postdoc, North Carolina State University)
2020-present	Junyoung Jeong, The Ohio State University
2023-present	Alexander Ryan, The Ohio State University
2023-present	Wei Wang, The Ohio State University

#### **Doctoral Student (Dissertation Committee Member)**

2016-2018	Shaohui Tang, The Ohio State University
2017-2018	Yun Pu, The Ohio State University (placement: Assistant Professor,

2019-2023	Southwestern University of Finance and Economics) Junyi Hua, The Ohio State University (placement: Assistant Professor, City University of Macau
2021-2023	Yang Li, The Ohio State University
2022-present	Khyati Malik, The Ohio State University
2022-present	Hyeseon Shin, The Ohio State University
2023-present	Brian Cultice, The Ohio State University
2023-present	Yanchen Hu, The Ohio State University

#### **Doctoral Student (Candidacy Exam Committee)**

2018 Ziyu He, University of California, Santa Cruz

#### **Postdoc Supervising**

2018-2019 Shaohui Tang, The Ohio State University

### **Service**

#### **Editorship**

Associate Editor, *Climatic Change*, 2021-present

Editorial Board, *Computational Economics*, 2020-present

Guest Editor, a special issue of the journal “*Mitigation and Adaptation Strategies for Global Change*”, 2018-2019

#### **Reviewer of Economic Journals**

*American Economic Review*; *Journal of Political Economy*; *Quarterly Journal of Economics*; *Review of Economic Studies*

*American Economic Journal: Economic Policy*; *American Economic Journal: Macroeconomics*; *American Economic Review: Insights*; *American Journal of Agricultural Economics*; *Computational Economics*; *Economics Letters*; *Economics of Innovation and New Technology*; *Energy Economics*; *Environmental Economics and Policy Studies*; *Environmental and Resource Economics*; *Journal of Economic Dynamics and Control*; *Journal of the European Economic Association*; *Journal of Environmental Economics and Management*; *Journal of Forest Economics*; *Journal of Global Economic Analysis*; *Journal of the Association of Environmental and Resource Economists*; *Journal of Mathematical Economics*; *Management Science*; *Quantitative Economics*; *Resource and Energy Economics*; *Studies in Nonlinear Dynamics & Econometrics*

#### **Reviewer of Other Journals**

*Nature*; *Proceedings of the National Academy of Sciences*

*Advances in Atmospheric Sciences*; *Applied Mathematics*; *Climatic Change*; *Earth's Future*; *Ecosystem Services*; *Environmental Research Letters*; *Journal of Agricultural Science and Technology*; *Journal of Cleaner Production*; *Mitigation and Adaptation Strategies for Global Change*; *Nature Climate Change*; *Nature Communications*; *One Earth*

#### **Reviewer of Grant Proposals**

Alfred P. Sloan Foundation; Austrian Science Fund (FWF); European Research Council; National Science Foundation; National Natural Science Foundation of China; Swiss National Science Foundation; Swiss National Supercomputing Centre

#### **Other Review Service**

Agricultural & Applied Economics Association annual meeting (abstract reviewer); Czech National Bank;  
The Annual Conference on Global Economic Analysis (abstract reviewer)

### **Organizer/Co-organizer/Panelist/Moderator**

National Academies Workshop on the Dynamics of Climate and the Macroeconomy 2023 session “Nonlinear, Cascading, and Compounding Risks in the Economy” (panelist)

National Academies Workshop on the Dynamics of Climate and the Macroeconomy 2023 session “Capacity Building and Collaboration” (moderator)

INFORMS 2021 cluster of sessions about energy and climate (cluster chair and organizer)

INFORMS 2021 session “Decarbonization and Climate Policy” (chair and organizer)

INFORMS 2019 session “Economic Development, Energy and Climate” (chair and organizer)

INFORMS 2019 session “Economic Growth, Environment and Climate” (chair and organizer)

INFORMS 2018 session “Advances in Integrated Assessment Modeling” (chair and organizer)

INFORMS 2017 session “Energy and Climate” (chair and organizer)

ASSA 2017 session "Decision Making in the Face of Economic and Climate Uncertainty" (co-organizer)

ICE 2014 Workshop (co-organizer)

Workshop of Summer 2013 Computation in CA (co-organizer)

### **Departmental Service (The Ohio State University)**

2017-present Faculty mentor for undergraduate students

2017-2023 Member, Seminar Committee

2022-2023 Member, Faculty Search Committee

2018-2021 Member, Graduate Studies Committee

2019 Member, Nomination Committee

### **University Service (The Ohio State University)**

CFAES Research Award Committee (William E. Krauss Award), 2023

CFAES Programmatic Priorities, 2022

Reviewer, President’s Research Excellence program, 2021

CFAES Fellowship Review Committee, 2021, 2022

Sustainability Research Seed Grant Proposals Reviewer, 2021

CFAES Environmental Fellowship Committee, 2020

Judge, CFAES Graduate Poster Competition 2019, 2020, 2021

Graduate Faculty Representative for PhD Oral Exams:

Richa Verma (2022, Electrical & Computer Engineering); Ariel Garsow (2022, Food Science and Technology); Yan Zhao (2020, Computer Science and Engineering); Jon Michel (2019, Economics); Nam Gang Lee (2018, Economics); Hyungjo Hur (2017, The John Glenn College of Public Affairs)

### **Other Professional Service**

INFORMS Best Paper Committee for Natural Resources, 2021

Faculty Promotion Evaluator: Zhejiang University (2022); University of Lausanne (2023)

## **Professional Affiliations**

American Economic Association (AEA); Association of Environmental and Resource Economists (AERE); Agricultural and Applied Economics Association (AAEA); Econometric Society; European Association of Environmental and Resource Economists (EAERE); The Institute for Operations Research and the Management Sciences (INFORMS)
