

Enabling Popup Blocker:

Google Chrome (Windows and Mac) Version 27

Enter <chrome://settings/> into the address bar or click the menu button () and choose settings. Click “Show advanced settings...”

Privacy

[Content settings...](#) [Clear browsing data...](#)

Under “Privacy” click “Content Settings”

Under “Pop-ups” ensure “Do not allow any site to show pop-ups (recommended)” is selected and click “Done”

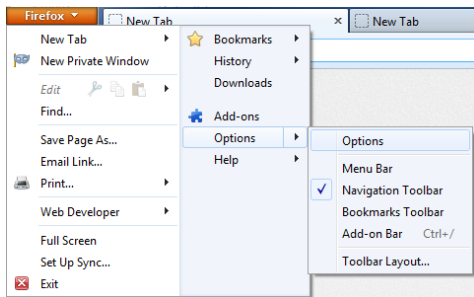

Pop-ups

- Allow all sites to show pop-ups
 Do not allow any site to show pop-ups (recommended)

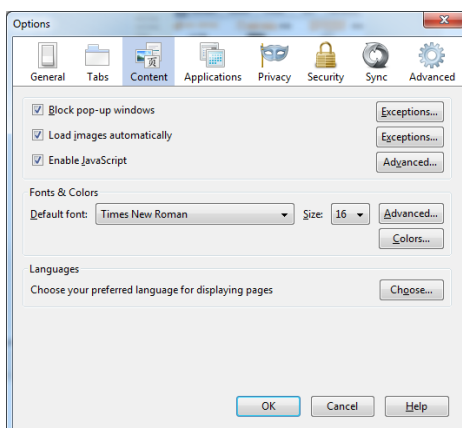

[Manage exceptions...](#)

Mozilla Firefox (Windows) Version 21

Click on the “Firefox” button and choose Options > Options

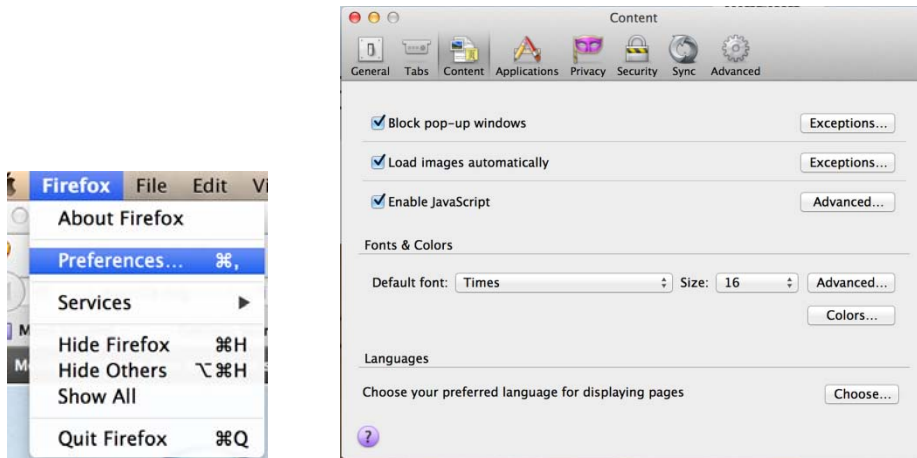

Choose the “Content” tab

Ensure “Block pop-up windows” is checked and click “OK”

Mozilla Firefox (Mac) Version 21

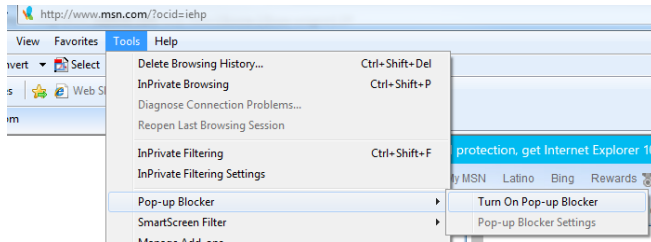

Open the “Firefox” menu and choose “Preferences...”

Choose the “Content” tab and ensure “Block pop-up windows” is checked and click “OK”

Internet Explorer (Windows) Version 8

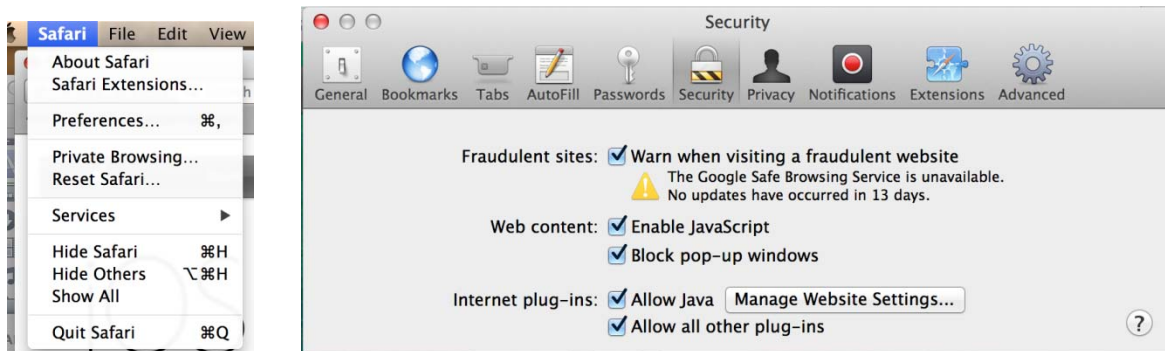

Open the “Tools” menu and under Pop-up Blocker choose “Turn On Pop-up Blocker” if it is listed

If it lists “Turn Off Pop-up Blocker” then Pop-up Blocker is already on.

Safari (Mac) Version 6.0.5

Open the “Safari” menu and choose “Preferences...”

Choose the “Security” tab

Ensure “Block pop-up windows” is checked
